- CSS
- HTML , HTML5
- Bootstrap , Tailwind
- JavaScript
- React.js

CERTIFICATES

- District level C programming competition
- "TechED Nexus" A One Day National Seminar

PROJECT EXPERIENCE

● **Airlines Website (Bootstrap Project):**

Designed and developed a responsive airline website homepage using HTML5, CSS3, and Bootstrap. Implemented a flight planner form, navigation menu, and banner section with modern UI design for an enhanced user experience.
Arline Project Link->

● **User Management Component (React Project):**

Developed a dynamic user management module using React and React-Bootstrap. Implemented form handling with useState hooks, data storage in state, and a responsive table for displaying user records with edit/delete options.
